PART III – MANDATORY REQUIREMENTS

_____ Last	_____ First	_____ Middle
_____ Date of Birth		_____ SGU ID Number
_____ Address		

To be completed and signed by a practitioner. All dates should include month and year. Include the manufacturer's name and lot number whenever possible.

A. Evidence of ONE PPD skin test completed 6 months prior to term start. We accept the Mantoux skin test (PPD) or ONE QuantiFERON blood test. The PPD must be indicated in millimeters. Students with a history of BCG vaccination or anti-tuberculosis therapy are not excluded from this requirement.

TUBERCULOSIS SCREENING: Intermediate PPD (5TU Mantoux Test)

_____ Date	_____ Product Name	_____ Lot Number
_____ Result mm (Please indicate mm of induration)		
_____ Practitioner Signature		_____ License Number
		_____ State / Country

OR

Interferon Gamma Release Assay Test (QuantiFERON Gold or "T" Spot). Single blood test result (NEGATIVE RESULT) may be submitted to satisfy the TB screening requirement."

If your QuantiFERON test or PPD is positive (> 10mm) now or by history, you need not repeat these. In this case, the following statement must be signed and dated by a physician and submitted along with the official report of a recent chest x-ray. The exam and the chest x-ray must be done within SIX months before your expected start date."

I have been asked to evaluate the above-named student because of a positive PPD (Date: _____). Based on the student's history, my physical exam and recent chest X-ray (Date: _____), I certify that the student is free of active tuberculosis and poses no risk to patients. A copy of the chest X-ray has been provided for the student to submit as proof.

2. MANDATORY REQUIREMENTS:

MEASLES, MUMPS, RUBELLA, VARICELLA

All students must submit copies of laboratory results of serum IgG antibody titers for measles, mumps, rubella (MMR) and varicella. Immunization records are NOT accepted as proof of immunity. Any laboratory results, which indicate non-immunity, require proof of additional vaccine administration located below under additional immunizations.

Tdap (Ex: Adecel)

**Received within
the last 5 years**

Date

Practitioner Signature

Hepatitis B

Documentation of three doses of hepatitis B vaccine, and a positive hepatitis B surface antibody titer are necessary. Completion of the three hepatitis B vaccinations is required but students may register without completing the full series. If the hepatitis B vaccination has not been received prior to registration, it will need to be completed during the first SIX months of medical school. This must be followed with a test for hepatitis B surface antibody, which must be completed within the SEVENTH month starting medical school.
