Dear Jafar,

On behalf of St. George's University (SGU) School of Medicine, I am pleased to share that you are provisionally accepted into the Four-Year Doctor of Medicine (MD4) program for entry in the August 2025 term.

Our committee on admissions, the Faculty Student Selection Committee, is offering you the option of two different ways to earn full acceptance to the MD4 program.

Full acceptance into the program will be extended to you upon successful completion of just one of the following options:

MDStart

MDStart is a 14-week trial period in our School of Medicine MD4 program that will naturally and accurately measure your readiness for medical school. **Full admission** into the MD4 program will be extended to you upon successful completion of the **MDStart** trial period. Students who successfully complete the trial period are offered full admission to the MD4 program and can continue with the rest of Term 1 as a regularly enrolled student. For the specific requirements needed to successfully complete the trial period, please refer to the [MDStart Student Guide](#).

MDStart students are part of the SGU community in the same manner as all other Term 1 MD4 program students and have access to all the same curricular and co-curricular benefits, student services, and student support. **MDStart** offers a valuable opportunity to confirm *your* interest and aptitude for medical school prior to making a full personal and financial commitment to the MD4 program, as you are not required to pay any immediate tuition and fees and are not eligible to receive Federal Direct Loans (eligible US students) until you successfully complete the trial period and choose to enroll in the MD4 program. For complete details, please refer to the [MDStart Terms and Conditions](#).

Medical School Assessment Program (MSAP)

MSAP is an intensive, *full-time* four-week online assessment consisting of upper-level course content in biochemistry, genetics, anatomy, and physiology. It is designed to provide our committee on admissions with a clear assessment of your readiness for the medical school curriculum. Students who pass MSAP earn full acceptance into SGU's Four-Year MD program. For details and the specific requirements needed to successfully complete MSAP please refer to the [MSAP Student Guide](#).

St. George's University

SCHOOL OF MEDICINE

Grenada, West Indies

To accept your offer of provisional admission, let us know which option you are choosing by June 9, 2025.

Please also sign the [Acknowledgment of Admissions](#) and [Honor Code](#). Please note that your acceptance to St. George's University is contingent upon satisfactory completion of any outstanding academic work.
