

DM SG4: Gastrointestinal system

Dress Code: Professional, casual attire or full scrubs with closed toed shoes.

Required materials and equipment:

1. Pawlina text Chapters 16 &17: Digestive system
 - a. Special attention should be paid to **clinical folders**
2. HCB Lab Supplement Gastrointestinal System.pdf (SG4 folder)
3. **Clinical integration Digestive system.pdf – Self-study (To be done by student)**
4. DM Lectures 13, 15, 17, and DLA's 06 & 08

How to prepare for this session:

1. **Interactive Lab session:** ~95 minutes
 - Complete reading assignments
 - Review DM lectures 13,15 &17, and DLA's 06 & 08
 - Review the slides found in the **Gastrointestinal System.pdf** along with the corresponding **HCB Lab Supplement Gastrointestinal System.pdf** and the **Self-study Clinical Integration packet**.
 - Practice presenting all slides as if you were presenting to the rest of the small group.
 - Research cases in the clinical integration document to answer associated questions.
2. **Identification slides (~10 minutes)** will be guided by clinical faculty and released for review after the small group session.

Note

HCB small groups are *student-driven, active learning sessions*. Students *should be prepared to present and discuss the slides found in the Gastrointestinal system.pdf*. Students *are randomly selected to present slides to the other members of the small group*. Clinical faculty will lead the small group through the Identification handouts.
