

## **ER SG4: Male Reproductive System**

**Dress Code:** Professional, casual attire or full scrubs with closed toed shoes.

### **Required materials and equipment:**

1. *Pawlina text Chapter 22*: Male Reproductive System
  - a. Special attention should be paid to clinical folders
2. HCB Lab Supplement Male Reproductive System.pdf (SG4 folder)
3. Male Reproductive System Integrated Clinical Cases.pdf

### **How to prepare for this session:**

1. Research article: ~10 minutes
2. Integrated cases discussion: ~70-80 – minutes
3. Review the ER lectures associated with this system (ER 12 etc) and the Histology Cell Biology DLA on the Male Reproductive System
4. Review the slides found in the Male Reproductive System Integrated Clinical Cases.pdf along with the corresponding HCB Lab Supplement Male Reproductive System.pdf
5. Practice presenting all slides as if you were presenting to the rest of the small group
6. Facilitator and small group evaluations (at the end of the session)

**Note:** Integrated small groups are student-driven, active learning sessions. Students should be prepared to present and discuss the slides found in the Male Reproductive System Integrated package.
