

Fries and a Redbull (Fall 2020) Covid edition

The DLAs will be tested like full lectures, take them seriously!!

Still updating, the last couple weeks aren't done yet.

Term 4 anki separated by week is now in the drive! [Term 4 anki](#)

	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Week 1 Lectures	#0 orientation #1 Medical Interviewing 1 DLA's 1-3	#2 Medical Interviewing 2 #3 Cell Injury & Adaptations 1 DLAs 4-6	#4 Cholinergic pharm 1 #5 Cell injury adaptation 2 DLA 7	#6 Cholinergic pharm 2 #7 Inflammation & Repair 1 DLA 8	#8 Adrenergics 1 #9 Inflammation & Repair 2 DLA 9	first 5 lectures first 5 DLAs	Finish lectures Rest of DLAs
Videos	B&B: Basic pharm (1a enzymes)	Pathoma 1.2 cellular injury, 1.3 cell death B&B: Basic pharm (1b-1c)	Pathoma 1.1 growth adaptations, free radicals B&B: ANS 4.1-4.3 Pixorize: muscarinic receptors	Pathoma 2.1 acute inflammation Sketchy: parasympathetics 1.1-1.3 -B&B: Basic pharm (1d-1e elimination, kinetics)	Pathoma 2.2 chronic inflammation Sketchy: sympathetics 2.1-2.4 Pixorize: alpha 1 adrenergic receptors, alpha 2 adrenergic receptors	G's get general path-module 1 Utah cell injury Qs Pixorize: beta-1 adrenergic receptors	Utah inflam Qs Pixorize: beta-2 adrenergic receptors, beta-3 adrenergic receptors
Questions		Utah Path questions -cellular injury	Pre-test -General pathology	MOTO -40 pharm Qs (81-120) -20 ANS Qs (1-20) MOTO drive	MOTO -40 pharm Qs (121-160) -20 ANS Qs (21-40)	MOTO MOTO -40 pharm Qs (1-40) **MARK INCORRECT TO REDO LATER**	MOTO MOTO -40 pharm Qs (41-80)
FA pages (2020)	Pharm: 232-235	Pharm:230-231 Path: 206-207*** HIGH YIELD	Pharm: 236-239 Path: 206-207	Pharm:230-231, 240-241	Pharm:232-235, 236-239, 242	Review 230-235	Review
Anki	50 new W1	50 new W1 +100 Reviews W1	50 new W1 +100 Reviews W1	50 new W1 +100 Reviews W1	50 new W1 +100 Reviews W1	50 new W1 +100 Reviews W1	50 new W1 +100 Reviews W1
Week 2 lectures	#10 Adrenergics 2 #11 General Appearance and Vital signs	#12 NSAIDS #13 Inflammation & Repair 3	#14 Opioids #15 Tissue Repair & DLAs 10-12	#16 Immunopharm #17 Amyloidosis DLA 13	#18 Pain management #19 Pathology of Neoplasia-1	G's get general path-module 2 Review Path lectures (5,7,9,13,15)	Review week 1 Lecture (1-9)
videos	Rewatch Sketchy: sympathetics 2.1-2.4 Re-read/review pathoma chapter 1-2	Pathoma: 2.5 wound healing Sketchy pharm: NSAIDs (arguably my least favorite sketchy of all time) Pixorize: muscarinic receptors	Sketchy pharm: 2.3 opioids, 3.2 Gout Drugs Pixorize: alpha 1 adrenergic receptors, alpha 2 adrenergic receptors	*Pixorize: 1 (high yield): cyclosporine, tacrolimus, sirolimus, basiliximab, mycophenolate, azathioprine, Sketchy pharm: steroids Pathoma: 1.5 amyloid Sketchy path: Amyloidosis B&B osteoarthritis	Pathoma: 3.1 neoplasia Sketchy pharm: rewatch NSAID, Opioids and use lecture for the rest B&B: rheumatoid arthritis Sketchy path: Rheumatoid arthritis Optional: sketchy methotrexate (DMARD)	Pixorize: beta-1 adrenergic receptor	Pixorize: beta-2 adrenergic receptors, beta-3 adrenergic receptors

[illegible]

Fries and a Redbull (Fall 2020) Covid edition

Week 4 lectures	#30 skin msk and bone infection 4 #31 Hemodynamic 1	#32 skin msk and bone infection 5 #33 Hemodynamic 2	#34 skin msk and bone infection 6 #35 Hemodynamic 3	#36 Hemodynamics 4		Lectures 24- 33	Lectures 34-35
videos	Sketchy micro: Gram + cocci (1.3 Strep) Gram + fil (3.1 actinomyces), Cutaneous mycoses (2.3 sporothrix) Pathoma: hemostasis 4.3	Sketchy micro: Helminths (5.1 intestinal nematodes), Gram + Baccili (2.5 C. Perf), Gram - zoonotics (7.4 pasteurella), M Pathoma: 4.4 thrombosis Rewatch yesterday's sketchies 2x speed	Pathoma: 4.5 Sketchy micro: VZV, smallpox, HSV1, measles, roseola Rewatch yesterday's sketchies 2x speed	Sketchy Pharm: Vasoactive (1 PGs) Sketchy micro: rubella, parvo, cocksackie, HPV, smallpox		Review all path labs (all the pictures on the exam will come from these labs and there's usually a bunch)	Review all of week 4 -lectures -sketchies -pixorize -questions -pathoma
Anki	100 New W4 +150 Reviews W1-W4	100 New W4 +150 Reviews W1-W4	100 New W4 +150 Reviews W1-W4			100 New W4 +150 Reviews W1-W4	100 New W4 +150 Reviews W1-W4
tasks			G's get general path-module 4				
Week 5	<u>EXAM</u>						

2 rules: You must watch pathoma and you must watch sketchy. Anything else is negotiable.

Sketchy: The key to sketchy is to get 3 passes on each video before the exam, So start them the week before you learn them in class. They WILL cover more than you need to know for the first exam, since you'll learn more about each micro in each body system. Do yourself a favor and learn it all now, and you'll know it for later

Pathoma: on the other hand is an amazing post/pre-read that only need to be annotated/watched once (key for path lab)

Videos: This drive contains pathoma, sketchy, boards & beyond, pixorize, ect

→ www.Kope.club

Sketchy checklist and B&B checklist added to the term 4 drive

SGU specific
